EasyShop v1.41

nlstart,

An important bugfix version v1.41 has become availabe for EasyShop; with this version the PayPal IPN download products are properly sent.

Also some new features have been implemented in this version:
- easyshop_latest_menu.php: new menu to display latest product addition
- ipn_functions.php: when minimum level of 1 is reached for stock products the admin will receive an alert by e-mail (in future versions the minimum level will be set per product).
- ipn_functions.php: when user purchased more than there is in stock the the admin will receive an alert by e-mail

The download of the latest EasyShop plugin is available in the NLSTART download section and will be released on plugins.e107.org and e107coders.org soon.

The changelog of EasyShop can be found in the EasyShop Wiki and readme.txt of the EasyShop download package.

Happy shopping!
