

## **Sneak Preview Poker v1.2**

nlstart,

Head on over to the [Poker demo page](#) for a live sneak preview of Poker v1.2.

I added the following functionality to the existing Poker plugin:

- » new start amount for a special class

- » new e-mail settings:

admins can decide if logged in members get an e-mail when they enter the Hall Of Fame. The admin can also set the e-mail subject and the e-mail text itself.

I have extended the current top 10 into a top 25 (this flexibility was already available since v1.1) so that should make more room to get more people into the HOF!
